

## Plans - what plans?

---

Full of good intent...the resurrection of the MG - Highlands group was full of good intent and enthusiasm on my part and several dozen others in the area. A new Facebook Group was set up and enjoyed an amazing amount of interest - some 30 odd souls joined up in the first week. Presently there are 53. Having received a list of members in the Highlands area those in the postcodes north of the Highland Boundary fault line were used as a start for the definition of the group membership and area. There will be undoubtedly some cross over with the very excellent Central and Borders group membership and this is encouraged.

Of great import was the mini-survey. This ran over the summer to give some idea of what the group consider important and the results are presented later.

## MG-H 2020 initiatives

### [Facebook group page](#)

The Facebook group is called: Moto Guzzi - Highlands

At present there are some 53 members however over the last two months things have stalled and the items need

pegs wertnt1 shigher and Mylo could just r12 W aach them. T12 W his change maant the axhau
